June 30, 2020

To the City Commission and the
Citizens of the City of Leavenworth:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the City of Leavenworth, Kansas (the City) for the year ended December 31, 2019. Kansas statutes require the City to issue an annual report on its financial position and activity, and that this report be audited by an independent firm of certified public accountants. The CAFR is prepared in accordance with the principles and standards for financial reporting set forth by the Governmental Accounting Standards Board (GASB), accounting principles generally accepted (GAAP) in the United States of America, and audited in accordance with auditing standards generally accepted (GAAS) in the United States of America.

This report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Cochran Head Vick, & Co. P.A. a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering unmodified opinions that the City's financial statements for the fiscal year ended December 31, 2019 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the City's internal controls, and compliance with legal requirements, with special emphasis on internal controls and compliance with legal requirements involving the administration of federal awards. These reports are available in the Single Audit section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Leavenworth, Kansas was established in 1854 and incorporated by the first Kansas territorial legislature in 1855. The City is a legally constituted city of the First Class and the county seat of Leavenworth County. It sits on the west bank of the Missouri River approximately 28 miles northwest of Kansas City, Missouri and 45 miles northeast of Topeka, Kansas. The City has a population of 36,154 and covers an area of approximately 23.5 square miles.

The City is empowered to levy a property tax on both real and personal properties located within its boundaries. It is also empowered by state statute to extend its corporate limits by annexation, which occurs periodically when deemed appropriate by the governing body.

The City has operated under the commission-manager form of government since 1969. Policy-making and legislative authority are vested in the City Commission, which consists of five Commissioners. The City Commission is responsible for passing ordinances, adopting the annual budget and capital improvements program, appointing committees, and hiring the City Manager. City Commissioners are elected at large and on a non-partisan basis. Every two years, three Commissioners are elected; the two Commissioners with the highest vote totals receive four year terms while the Commissioner with the third highest vote total receives a two year term. Each year, a Mayor is selected by a majority vote of the Commissioners. The City Manager is responsible for carrying out the policies and ordinances of the City Commission, overseeing the day-to-day operations of the City, and appointing the heads of the City's departments.

The City's financial reporting entity includes all funds of the primary government (the City of Leavenworth) and of its component unit—the Public Library. A component unit is a legally separate entity for which the primary government is financially accountable. Additional information on this legally separate entity can be found in Note 1.A in the notes to the financial statements.

The City provides a full range of services, including:

- **Public safety:** police and fire protection, animal control, and parking enforcement.
- **Public works:** sewer, refuse, stormwater management, building inspection, airport, and the construction and maintenance of streets, bridges and other infrastructure.
- **Housing and urban redevelopment:** planning and zoning, code enforcement, rental coordinator, and a range of housing and community development programs supported by federal grants.
- **Community and economic development:** business recruitment, retention, and expansion incentives; innovations for entrepreneurs and veterans; and local transportation enhancements
- **Culture and recreation:** parks, recreation, community center, and performing arts.
- **General governmental and administrative services.**

The annual budget serves as the foundation for the City's financial planning and control. Applicable Kansas statutes require that annual budgets be legally published and adopted for all funds (including Proprietary Funds) unless exempted by a specific statute. Statutory exemptions currently exist for all Capital Project Funds, Fiduciary Funds, certain Special Revenue Funds and certain Proprietary Funds. Applicable Kansas statutes require the use of an encumbrance system as a management control technique to assist in controlling expenditures.

The statutes provide for the following sequence and timetable in adoption of budgets:

- (a) Preparation of the budget for the succeeding calendar year on or before August 1 of each year.
- (b) Publication of proposed budget on or before August 15 of each year.
- (c) A minimum of 10 days' notice of public hearing, published in local newspaper, on or before August 15 of each year.
- (d) Adoption of the final budget on or before August 25 of each year.

Budgets are prepared by fund, department, and activity. City management may make transfers of appropriations at the department and activity level of a fund without seeking the approval of the governing body; however, management cannot amend the total budget of a fund without approval of the governing body. The legal level of budgetary control is the fund level and is the level at which the governing body must approve any over expenditures of appropriations or transfers of appropriated amounts. Kansas statutes prohibit creating expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Such statutes permit original fund expenditure budgets to be increased for previously unbudgeted increases in revenue other than ad valorem property taxes. The City must first publish a notice of public hearing to amend the expenditure budget of a fund. Ten days after publication, a public hearing is held and the City Commission may amend the expenditure budget of the fund at that time.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Local economy

The City of Leavenworth is known nationally as the home of the Leavenworth Federal Penitentiary. Several other federal institutions, including Fort Leavenworth, the Command and General Staff College of the U.S. Army, and the U.S. Disciplinary Barracks make the City an important site for governmental and military purposes. These federal institutions provide employment for nearly 1,720 civilians. The Veterans Administration—which operates a full service medical center and employs approximately 700 civilians—is another federal agency that has a significant presence in the City. Also, a privately-owned corrections facility serving the federal Marshall's Service employs approximately 230 people.

The City enjoys a strong, almost recession-proof economy, and local indicators suggest continued stability. Over recent years, population and tax base trends indicate moderate but steady growth and the City's median family income and housing values remain above those of the state as a whole. This economic stability is primarily due to the presence of the federal institutions and several large private sector firms including Hallmark Cards (employing 260 people),

Northrop Grumman, Cubic Defense Applications Group, and Armed Forces Insurance Corporation.

Long-term financial planning

The City Commission recently approved a five-year capital improvements program (2020–2024) that contains in excess of \$42.5 million in identified projects. The following table identifies the spending requirements by category:

Infrastructure	
Streets	\$12,790,000
Bridges	120,000
Other Infrastructure	251,146
Sidewalks, curbs, gutters	2,467,005
Sewer and stormwater	13,788,399
Equipment	4,620,965
Economic development	1,970,474
Buildings	6,244,417
Parks	284,370

To the extent possible, these projects are funded on a pay-as-you-go basis with City and Countywide sales tax proceeds or other operating sources. In fact, \$17,314,369 of identified projects are funded in this manner. An additional \$1,580,599 of identified projects are funded by federal and state grants for street and bridge construction.

Finally, approximately \$17,490,000 of identified projects are or will be funded with long-term capital financing or short-term capital leases. It is expected that the debt service associated with bonds issued to finance these projects will have a minimal impact on the City’s mill levy rates for the next five years because they are funded by revenues other than property taxes.

Financial Policies and Budgetary Initiatives

Financial policies

During 2019 minor changes were made to the purchasing policy to encourage more bidders to respond to project bids, while still maintaining compliance with purchasing laws. This was moderately successful and so other factors are under review.

During 2019 a review of the City’s investment policy began. The policy will be updated and presented to the Commission during 2020 for approval.

In 2019, increased economic development activities increased significantly. These activities were facilitated by the economic development policies the Commission approved in 2017.

Budgetary Initiatives

During the 2020 budget process, the City maintained a stable mill levy which was facilitated by increases in assessed valuations and increased sales tax revenues. Additionally, the Commission approved storm water impact fee continues to have major impact on addressing issues in residential areas as well as addressing infrastructure replacement. Another initiative included in the 2020 budget was the implementation of a rental coordinator program to help address housing issues that aren’t addressed by other programs.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Distinguished Budget Presentation award for its 2020 budget. This is the second year the City has received this prestigious award. In order to be awarded this certificate, a budget must satisfy nationally recognized guidelines for effective budget presentation. These guidelines are designed to assess how well an entity's budget serves as a policy document, financial plan, operations guide, and communications device.

The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Leavenworth for its comprehensive annual financial report in the fiscal year ended December 31, 2018. This was the 25th consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Our appreciation is extended to the Mayor and City Commission for their unfailing support for maintaining the highest standard of professionalism in the management of the City's finances. We would also like to acknowledge the staff of the Finance Department and City Clerk's Office for their assistance during the preparation of this report. Finally, we would like to recognize the accounting firm of Cochran Head Vick, and Co P.A. for their assistance in the preparation of this report.

Independent Auditor's Report

The Honorable Mayor and Members of the City Commission
City of Leavenworth, Kansas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Leavenworth, Kansas, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Leavenworth Public Library, which represents 100 percent of the assets, net position, and revenues of the discretely presented component unit. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Leavenworth Public Library is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the Kansas *Municipal Audit and Accounting Guide*, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers the internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and other required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2020 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Cochran Head View & Co., P.A.

Overland Park, Kansas
June 30, 2020

Management's Discussion and Analysis

As management of the City of Leavenworth, Kansas, (the City) we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i – v of this report.

Financial Highlights

- The City's bond rating in 2019 was Aa2.
- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$35,861,658 (*net position*). Implementation of the accounting changes required by GASB 75 in 2018 resulted in an increase of \$1,373,451 of net pension and other post-employment liability for 2019. During 2019, the City recognized \$9,185,000 of temporary notes payable for infrastructure projects. Additionally, the 2019 flood resulted in a net decrease of \$89,463 in fund balance. As a result, the City has an unrestricted net position of (\$23,454,522).
- The City's total net position decreased \$1,718,683, or 4.6 percent, during the fiscal year.
- As of December 31, 2019, the City's governmental funds reported combined ending fund balances of \$12,537,711, a decrease of \$1,969,472 over the prior year.
- At the end of the current fiscal year, the fund balance of the General Fund was \$5,179,512, or 27.1 percent of total General Fund expenditures. The City's Commission adopted Reserve Policy requires two months of expenditures (16.67%) as fund balance.
- The City's total bonded debt decreased \$2,165,000 during the current fiscal year. General obligation bonds totaling \$1,340,000 were issued for governmental activities to provide for general infrastructure improvements. However, \$5,030,000 of previously existing debt for both governmental and business-type activities was retired during the year.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as *net position*.

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenue and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenue (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, culture and recreation, community and economic development, and housing and urban redevelopment. The business-type activities of the City include a Sewer Fund, Storm Water Fund, and a Refuse Fund.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also a legally separate public library for which the City is financially accountable. Financial information for this *component unit* is reported separately from the financial information presented for the primary government itself.

Complete financial statements for the Public Library are available from their offices at 417 Spruce Street, Leavenworth, Kansas 66048.

The government-wide financial statements can be found on pages 17-18 of this report.

Fund financial statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, the reader may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenue, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains nineteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenue, expenditures, and changes in fund balances for the General Fund, Debt Service Fund and the Capital Projects Fund, all of which are considered to be major funds. Data from the other sixteen governmental funds are combined into a single, aggregated presentation. Individual funds data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City adopts an annual appropriated budget for the General and Debt Service Funds. A budgetary comparison statement has been provided for each of these funds to demonstrate compliance with these budgets.

The basic governmental fund financial statements can be found on pages 19-22 of this report.

The City maintains one type of **proprietary fund**. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its sewer, storm water, and refuse operations.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Sewer, Storm Water, and Refuse Funds, of which, the Sewer Fund is considered to be a major fund of the City.

The basic proprietary fund financial statements can be found on pages 23-25 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 26-27 of this report.

The **notes to the financial statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28-80 of this report.

In addition to the basic financial statements and accompanying notes, this report also presents certain **required supplementary information** concerning the City's progress in funding its obligations to provide pension and postemployment benefits to certain of its employees. Required supplementary information can be found on pages 81-89 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 90-104 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets plus deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$35,861,658 at the close of the current fiscal year.

By far, the largest portion of the City's net position reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position \$9,777,992 represents resources that are subject to external restrictions on how they may be used. Further detail on these restrictions can be found on page 17.

The City's change in net position related to 2019 activities decreased \$1,718,683 from the prior year. The reasons for this change are discussed in the following sections for governmental activities and business-type activities.

Governmental activities

The 2019 governmental activities decreased the City's net position \$2,860,356. Key elements of the decline in the current year are as follows:

- Revenues in total were down \$221,125. Of this amount, franchise fees were down by \$85,925; inspections were down by \$51,195; room rental and catering revenues were down by \$45,721 (due to the Stone Replacement renovations taking place at the River Front Community Center during 2019;) and court fines and fees were down by \$43,085. The difference is made up of an accumulation of smaller amounts of both increases and decreases.
- Revenue from all taxes, including property taxes and sales taxes, increased \$1,132,452 during the year. \$177,870 of increased property taxes resulted from an increase in assessed valuation and no increase in mills. Sales tax revenue increased \$727,795 over 2018, with an increase of \$616,750 in city sales tax; \$111,045 in county wide sales tax. As mentioned above, franchise taxes decreased \$85,925, due to climatic changes; motor vehicle taxes remained relatively consistent in 2019; and transient guest taxes increased \$106,458. TIF taxes and special assessments remained relatively the same.
- The City implemented GASB 75 in 2018 which resulted in a reduction of governmental activities' net position of \$605,473. GASB 75 is a complete change in the way governmental entities report post-employment benefits other than pensions (OPEB). The OPEB liability used to be calculated based on the shortfall of contribution to the actuarial determined amount required. The new approach recognizes the amount employees have earned and the contributions made are recognized as a funding mechanism. Implementation was required for fiscal years beginning after June 15, 2017.
- Overall, expenses increased \$1,627,639 over the prior year, \$165,615 is attributed to health insurance; \$226,671 is related to several positions that were vacant for part of 2018 were filled for the full year in 2019; and the GIS technician, and rental coordinator positions were created and filled; benefits associated with the staffing changes also increased; \$172,208 is due to the increased allocation of depreciation expense; the balance is related to capital outlay for streets, sidewalks, IT equipment, and the RFCC stone replacement project .
- General government expenses increased \$1,174,792 during the year. Personnel increased by \$168,634 due to the cost of living adjustments in salaries and related benefits, and insurance. Contractual services increased \$420,992 related to building and grounds maintenance due to the 2019 flood, re-codification of the City's Ordinances, property and liability insurance, newly added telephone charges related to an upgrade in emergency communications technology, and the newly added City Festival; \$118,882 was an increase in commodities related to IT upgrades, the balance is related to depreciation expense, IT equipment; and transfers of \$146,036 and \$147,392 to the Recreation and Streets Funds, respectively.
- Public safety expenses increased by \$1,156,758. Of this amount, personnel costs increased by \$368,029 due to increases in over time, KP&F, vacation, and sick leave payouts related to the retirement of long-time personnel, contractual services increased by \$87,730 mostly due to upgrades in software maintenance upgrades; commodities are down by \$160,378 due in part to reduced fuel expenses safety apparel; and the rest is related to depreciation expenses and capital outlay.

Public works expenses remained relatively the same except for capital outlay.

Culture and recreation expenses increased \$1,501,652 over 2018. This is due to increases in vacation and sick leave payouts to retiring employees (\$26,805); depreciation expense (\$1,177,786); and \$30,289 of capital outlay.

Community and economic development expenses decreased \$1,691,109 due to the addition of the rental coordinator function, increased landscaping activities at the Business & Technology Park, and increased TIF activities.

Housing and urban redevelopment expenses decreased \$275,304 over the prior year due to the reduction Section 8 expenditures (\$89,675); a \$19,481 reduction of Blight refunds; and various other items of smaller amounts.

Business-type activities

The 2019 Business-type activities increased the City's net position by \$1,141,673. Key elements of this increase are as follows:

- Sewer Fund revenue increased \$13,146, from the prior year due primarily to a 6% increase in the sewer utility rate initiated at the beginning of the year. This rate increase generated an additional \$150,646 and was enacted to accommodate normal inflationary cost increases and capital outlay. The V.A. (Veteran's Hospital) implemented some conservation efficiencies which resulted in a decline in revenues of \$32,412. The City also recognized a decline in revenues of \$68,406 related to the USP (United States Penitentiary).
- The Sewer Fund ended the year with a decrease in net position of \$298,032. This was due to an increase of \$79,170 in personnel costs related to increased overtime due to the flood and an increase in health insurance. Contractual services expenses decreased \$153,874. Of this amount \$109,730 was due to a decrease in sewer repairs and maintenance; \$16,538 was due a decrease in vehicle repairs and maintenance; \$118,140 was due to a decrease in equipment repairs and maintenance. Electricity increased, property and liability insurance increased, and buildings and grounds maintenance increased. Commodities increased by \$43,259 due to an investment in non-capital equipment. Non-capital equipment is defined as equipment that does not exceed a \$5,000 threshold. In 2019, the City implemented some IT system upgrades including wireless connectivity in city facilities. Depreciation expense increased \$552,225.
- The Refuse Fund increased the City's net position by \$298,969. Refuse Fund revenue increased \$150,594, due to an 8% increase in refuse rates. Rates were increased to compensate for increased costs of landfill expenses and to replace equipment that had been deferred during the Great Recession. Refuse Fund expenses decreased \$43,310, due primarily to a \$30,538 decrease in landfill fees. The City requested a bid for landfill services and was able to recognize a significant savings even though there was increased tonnage. Personnel costs increased related to overtime from the flood, health insurance rate increase, and benefits related to the implementation of the compensation plan. Contractual services decreased \$79,866 due to a reduction in administration and supervision fees. Commodities increased by \$15,377 due to increased fuel expenses related to the change in travel distance to the landfill. The City provides free trash bags to the residence twice a year. The cost of providing those trash bags decreased by \$10,422. Depreciation expense was \$46,193, a decrease of \$17,810.
- In 2018, the Commission implemented a storm water impact fee that became effective for 2019. The fee is to provide a funding mechanism to pay for deferred maintenance on the City's storm drainage system. The first priority is to address issues that cause problems on residential properties. The City hired a GIS technician to assist in the implementation of this program. The fee generated \$1,237,601 in revenues for 2019. Program expenses for 2019 were \$240,036. The Storm Water fund increased the City's net position by \$1,140,736.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$12,537,711, a decrease of \$1,969,472 over the prior year. Of this amount (-\$2,376,868) constitutes *unassigned fund balance*, which, if positive, would be available for spending at the City's discretion. The remainder of the fund balance is either *restricted*, *committed*, or *assigned* to indicate that it is 1) restricted for particular purposes (\$9,777,992), 2) committed for particular purposes (\$5,109,580), or 3) assigned for particular purposes (\$27,007). The negative unassigned fund balance is related to capital outlay and the recognition of \$9,185,000 in liability from the Bond Anticipation notes issued for infrastructure projects.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the total fund balance of the General Fund was \$5,179,512. All but \$27,007 of this amount (\$5,152,505) is designated as unassigned fund balance, which is available for spending at the City's discretion. The \$27,007 of total fund balance is designated as assigned to reflect amounts intended to be used by the City for the liquidation of an encumbrance.

As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 26.9 percent of total General Fund expenditures, while total fund balance represents 27.1 percent of total General Fund expenditures.

The fund balance of the City's General Fund decreased \$724,208 to \$5,179,512 during the current fiscal year. Revenue from property, sales, franchise, and special assessment taxes increased \$1,132,452 from the prior year and total expenses increased \$1,848,764 for reasons that are highlighted in the analysis of governmental activities. Transfers to other funds increased \$139,297. This was attributed to transferring: \$147,392 to subsidize the Streets fund; and \$146,036 to subsidize the Recreation Fund.

The Debt Service Fund had a restricted fund balance of \$361,513 at the end of the current year, staying the same as the prior year. Revenue increased \$24,626 and debt service expenditures increased \$12,945 from the prior year. Finally, transfers from other funds decreased \$57,554 due to the reduction of liabilities funded by the project funds.

At the end of the year, the fund balance of the Capital Projects Fund was (\$2,419,793), a decrease of \$2,216,007 from the prior year. Several factors contributed to this decrease:

- Total revenue decreased \$367,217 during the year. Revenues from temporary notes issued increased \$6,040,000 for the reconstruction of Thornton Street and the rehabilitation of 10th Avenue.
- Total capital outlay expenditures decreased \$204,940 due to the completion of the Riverfront Community Center Stone Replacement project.

Proprietary funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The unrestricted net position of the Sewer Fund at the end of the year was \$1,053,520, the Storm Water Fund unrestricted net position was \$2,133,127 and the Refuse Fund was (\$55,127). In comparison with the prior year, unrestricted net position for the Sewer Fund increased \$124,101 while unrestricted net position for the Refuse Fund increased \$200,419. The Storm Water Fund unrestricted net position increased by \$752,940. Factors concerning the finances of these three funds have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The City's final General Fund budget did not differ from the original budget since the budget was not amended during fiscal year 2019. During the year, revenues were \$102,015 more than budgetary estimates due to:

- Revenue from tax sources were \$134,931, less than budgetary expectations. Ad valorem taxes were lower by \$102,538. For transparency purposes, total ad valorem taxes were budgeted, including refunds to NRA districts and TIF districts. A corresponding expense related to these revenues was also budgeted. Delinquent tax collections were lower by \$24,085. Motor Vehicle taxes exceeded expectations by \$36,069.
- Sales tax revenue budgeted in the General Fund were higher by \$25,392. This is related to increased sales. Franchise tax revenues were lower than expectations by \$77,210.
- Intergovernmental revenues were higher than expectations by \$23,700.
- Revenue from licenses and permits were \$94,379 greater than budgetary expectations as inspections and remodeling permits exceeded expectations.
- Revenue from charges for services were \$75,305 lower than budgetary expectations due to lower administrative fees from TIF activities and reduce administration and supervision fees from Refuse Fund.
- Revenue from fines and forfeitures were \$101,458 below budgetary expectations due to decreased revenue from Municipal Court fines, however this would have been lower except that two traffic officers were placed in service in the last quarter of the year and traffic citations processed by the Police Department increased.

- Miscellaneous revenue were \$26,899 over budgetary expectations, however investment income exceeded expectations by \$268,731. Other budgeted items came in lower than budgetary expectations.

During the year, expenditures were \$3,217,323 less than budgetary estimates due to:

- General Government expenditures were \$2,983,099 below budgetary expectations due to personnel decreases of \$32,055 due to turnover; IT expenses related to the upgrades to several programs and software maintenance were higher (56,225), Liability insurance was higher by \$16,146; other contractual services were lower by \$110,023; commodities were \$16,891 more, related to the IT upgrades; IT equipment was higher by \$126,367. Transfers to the TIF funds were lower \$279,746, but transfers to the Recreation Fund and Street Fund were higher by \$113,428.
- Public Safety expenditures were \$244,537 less than anticipated due to personnel costs being below budget by \$209,178 and fuel expenses were lower by \$49,478. Other expenses were below budget as well.
- Culture and recreation expenditures were \$47,197 under budgetary expectations in part because the camp ground was closed all year due to the flood. Personnel costs were also down in spite of increased over time related to the flood.
- Public works expenditures were \$7,539 below budgetary expectations. Personnel expenditures were \$125,065 lower than anticipated due to employee turnover and the additional engineer position wasn't filled; vehicle repairs and maintenance were over budget by \$20,224; equipment maintenance and repair was over by \$16,784; commodities were over budget by \$9,862.
- During 2019, community and economic development activities were separated from general government activities in order to provide better transparency. The activities included in this function include planning, economic development, TIF related activities. The community and economic development activities for the General Fund are related to Planning. The Community and Economic Development function was \$24,554 lower than budgeted.

As mentioned earlier, transfers to other funds were \$111,093 under budgetary expectations during the year due subsidies to the Recreation Fund and the Street Fund. While their expenditures did not exceed their budgetary authority, they did exceed revenues.

During the year, revenue was less than budgetary estimates and expenditures were less than budgetary estimates, and fund balance was decreased by \$751,215 on a budgetary basis.

Capital Asset and Debt Administration

Capital assets

The City's investment in capital assets for its governmental and business-type activities as of December 31, 2019, amounts to \$70,725,988 (net of accumulated depreciation). The Commission approved revisions to the City's capital asset policy which redefined the thresh-hold for capitalizing asset purchases. The new policy establishes the GFOA recommended \$5,000 minimum for capitalizing assets.

Major capital asset events during the current fiscal year included the following:

- Numerous street and bridge reconstruction projects were completed at a cost of \$3,398,044, including the completion of 10th Ave, while several projects continued. Construction in progress for such projects as of the close of the fiscal year had reached \$4,917,397 for streets including the beginning of construction on Thornton Street.
- The River Front Community center stone replacement –phase IV, which began in 2018 was completed in 2019 for a total of \$769,544.
- Renovations to Stubby Park began in 2019. The project is comprehensive and will be completed in phases. It includes major storm water construction as well as updated and additional playground equipment. The current phase of the project is expected to be completed in 2020.

Additional information on the City of Leavenworth’s capital assets can be found in note 4.B on pages 43-45 of this report.

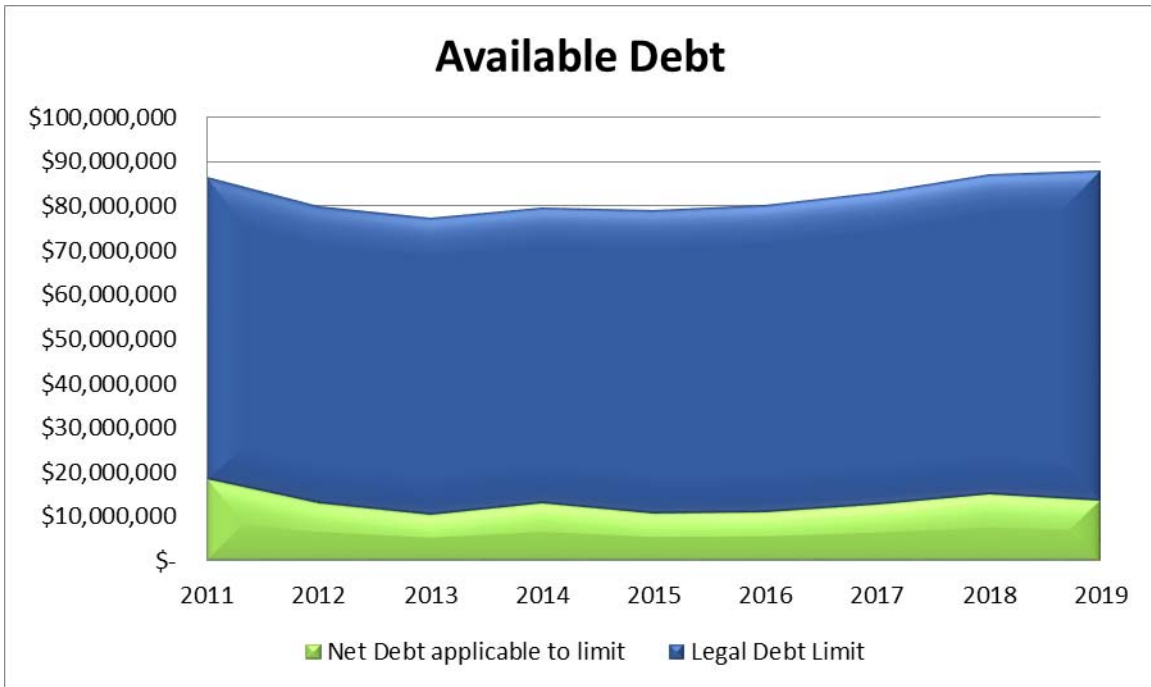

Long-term debt

At the end of the year, the City had total bonded debt outstanding of \$24,705,000, all of which is debt backed by the full faith and credit of the City. Of this amount, \$19,545,000 relates to governmental activities while \$5,160,000 relates to business-type activities.

The City’s total bonded debt decreased \$2,165,000 during the current fiscal year. General obligation bonds totaling \$1,340,000 were issued for governmental activities to provide permanent financing for general infrastructure. However, \$3,505,000 of previously existing debt for governmental and business-type activities was retired during the year.

The City maintains an “Aa2” rating from Moody’s for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to 30 percent of its total equalized assessed valuation. The current debt limit for the City is \$74,499,282, which is significantly in excess of the City’s outstanding general obligation debt.

Additional information on the City’s long-term debt can be found in Note 4.D on pages 47-50 of this report.

Economic Factors and Next Year’s Budgets and Rates

The change with the most impact for 2019 was anticipated to be from the tax lid law. However, the Commission decided to keep the mill levy flat and with the 2.5% net increase in assessed valuations, exclusions allowed by the law, and the consumer price index (CPI) adjustment of 1.4% allowed by the State, the City was able to maintain the current level of services and stay within the limitations of the law.

The NRA tax refunds were approximately \$87,364. TIF related property tax refunds are anticipated to be \$149,764.

It was anticipated that the City’s portion of County Wide sales and use tax would increase in 2019 by 3.5%; however, the end result was a 3.6% increase for sales tax and 9.4% for County Wide sales tax. The City’s portion of County Wide sales tax was budgeted to increase by 3.6% for 2020.

Franchise revenues were budgeted to increase by 5.0% in 2020, however 2019 actuals came in lower than 2018 actuals.

During 2019, current economic development activities and new housing addition currently under construction will have a direct impact on the 2020 budget. The full economic impact cannot be quantified at present.

In 2019, the Commission approved a Storm Water impact fee for the City to address deferred maintenance of the storm water system. It generated \$1.2m with which to address the identified projects. Additionally, the Refuse rates were increased 6.0% to accommodate equipment replacement and Sewer rates were increased 8.0% to keep pace with increased repair and maintenance of the sewer infrastructure.

The 2020 budget was created based on Commission established goals and priorities, with increased spending in Public Safety personnel, blight removal, creating a rental coordinator, increased funding for pavement management, phased implementation of the results of the 2018 compensation study.

The 2020 compensation plan for employees will include a 2.25% COLA allocated at mid-year. Health insurance benefits rates increased by 7.77% for 2020.

In summary, the approved 2020 budget levies a slightly lower mill levy than was established in the 2019 budget for City operations. The 2020 budgeted mill is at 31.728 mills.

Subsequent to the adoption of the 2020 budget, we, as every other city in the United States, are faced with the economic uncertainty related to the COVID-19 pandemic. As a result the budgetary estimates used to develop the 2020 budget may no longer be relevant. The City has yet to quantify the full impact on the current year or the upcoming fiscal year.

Additionally, the Bureau of Prisons has announced its intent to construct a new medium-security prison on federally owned property beginning in 2021. While the project is estimated to be approximately \$360,000,000, the long-term financial impact on the City has yet to be determined.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, 100 North 5th Street, Leavenworth, Kansas, 66048.

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. 56,811,629

Other long-term assets are not available to pay for current period expenditures and, therefore, are not reported in the funds. 173,779

Deferred outflows of resources represent a consumption of net position that applies to a future period and therefore are not reported in the funds. 3,529,023

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. (46,312,697)

Deferred inflows of resources represent an acquisition of net position that applies to a future period and therefore are not reported in the funds. (2,509,346)

City of Leavenworth, Kansas
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Funds Balances of Governmental Funds
to the Statement of Activities
For the Year Ended December 31, 2019

Amounts reported for governmental activities are different because:

Net change in fund balances - total governmental funds	\$	(1,969,472)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.		(1,671,742)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(342)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		1,644,669
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		<u>(863,469)</u>
Change in net position of governmental activities	\$	<u><u>(2,860,356)</u></u>

The notes to the basic financial statements are an integral part of this statement.

Notes to Basic Financial Statements

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

1. Summary of significant accounting policies

A. Reporting entity

The City of Leavenworth, Kansas (the City), a city of the first class, was incorporated in 1855. The City operates under a Commission-Manager form of government. The City is governed by an elected five-member board. As required by accounting principles generally accepted in the United States of America (GAAP), these financial statements present the City (the primary government) and its component unit, an entity for which the City is considered to be financially accountable. The discretely presented component unit is presented in a separate column in the government-wide financial statements to emphasize that it is legally separate from the primary government.

Discretely presented component unit

The Leavenworth Public Library (the Library) is reported as a discretely presented component unit of the City since its board is appointed by the City Commission and it imposes a financial burden on the City. Specifically, the City issued debt to construct the library facility and continues to assume responsibility for maintenance of the library. The Library's financial statements include the financial statements of its discretely presented component unit, the Leavenworth Library Foundation. The amounts presented for the Library are the combined total of the Library and its discretely presented component unit.

Complete financial statements for the Public Library are available from their offices at 417 Spruce Street, Leavenworth, Kansas 66048.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component unit. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which generally rely upon fees and charges for support. Likewise, the *primary government* is reported apart from the legally separate *component unit* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which expenses of a given function or activity is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or activity. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

1. Summary of significant accounting policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and non-agency fiduciary fund financial statements. The agency funds do not have a measurement focus and use the accrual basis of accounting to report their financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Debt Service Fund* accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The *Capital Projects Fund* accounts for capital improvements (except for those financed by proprietary funds) which are financed from the City's general obligation bonds, special assessments, and other specific receipts.

The City reports the following major proprietary funds:

The *Sewer Fund* accounts for all activities necessary to provide sewer services to the residents of the City.

The *Storm Water Fund* accounts for all activities necessary to maintain the storm water drainage system of the City.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

1. Summary of significant accounting policies (continued)

C. Measurement focus, basis of accounting, and financial statement presentation (continued)

The *Refuse Fund* accounts for all activities necessary to provide refuse collection and disposal services to residents of the City.

Additionally, the City reports the following fund types:

The *Pension Trust Fund* accounts for the activities of the City's Police and Firemen's Pension Plans.

The *Parks Foundation Fund* accounts for the activities of the Parks Foundation. The Parks Foundation is a group of volunteers who raise money specifically for Parks projects. The funds are not available for City operations or for use at the City's discretion.

The *Agency Fund* is custodial in nature (assets equal liabilities) and does not involve measurement of results of operations. It is used to account for assets held by the City as an agent for the Leavenworth Public Library system.

Generally, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's sewer and refuse function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Sewer Fund and the Refuse Fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Deposits and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term, highly-liquid investments with original maturities of six months or less from the date of acquisition.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

1. Summary of significant accounting policies (continued)

D. Deposits and investments (continued)

According to the City's formal investment policy adopted by the governing body, the City may pool idle cash from all funds for the purpose of increasing income through temporary investment activities. During the year, idle cash was invested in certificates of deposit, U.S. Government obligations, and repurchase agreements. Certificates of deposit are carried at cost because they are not affected by market rate changes. The repurchase agreements are stated at cost because they are not negotiable or transferable and are not affected by market fluctuations. The City also has investments consisting of U.S. Government obligations and money market mutual funds which are carried at fair value.

Investment earnings are allocated to the funds required to accumulate interest. Other investment earnings are allocated based on management discretion based on the average daily equity balances. If a fund is not required to account for its own earnings by law or regulation, the earnings are allocated to the General Fund. For the fiscal year ended December 31, 2019, investment earnings allocated to the various funds were approximately \$382,220. Of this amount, \$11,879 is allocated to the Fiduciary Funds (Police and Fire Pension Funds), and \$370,343 is allocated to the City's Governmental Activities.

E. Property taxes and other receivables

In accordance with governing state statutes, property taxes levied during the current year are a revenue source to be used to finance the budget of the ensuing year. Taxes are assessed on a calendar year basis and become a lien on the property on November 1 of each year. The County Treasurer is the tax collection agent for all taxing entities within the County. Property owners have the option of paying one half or the full balance of the taxes levied on or before December 20 during the year levied with the balance to be paid on or before May 10 of the ensuing year. State statutes prohibit the County Treasurer from distributing the taxes collected in the year levied prior to January 1 of the ensuing year. Consequently, for revenue recognition purposes, taxes levied during the current year are not due until the ensuing year. At December 31, 2019 such taxes are a lien on the property and are recorded as taxes receivable, net of anticipated delinquencies of \$136,558, with a corresponding amount recorded as unavailable revenue on the balance sheets of the appropriate funds. Of this amount \$20,790 is for the Fiduciary Funds (Police and Fire Pension Funds) and \$115,768 is for the City funds. Delinquent taxes held by the County Treasurer at December 31, 2019 are not significant.

F. Special assessments

Kansas statutes require projects financed in part by special assessments to be financed through the issuance of general obligation bonds that are secured by the full faith and credit of the City. Special assessments received prior to the issuance of general obligation bonds are recorded as revenue in the appropriate project fund. Special assessments and related interest received after the issuance of the general obligation bonds are recorded as revenue in the Debt Service Fund. Further, state statutes require levying additional general ad valorem taxes in the City's Debt Service Fund to finance delinquent special assessments receivable. Accordingly, special assessments receivable are accounted for within the City's Debt Service Fund. Special assessments are levied over a 10- or 20-year period, and annual installments are due and payable with annual ad valorem taxes. The City may foreclose liens against property benefited by special assessments when delinquent assessments are two years in arrears. At December 31, 2019, the special assessment taxes levied are a

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

1. Summary of significant accounting policies (continued)

F. Special assessments (continued)

lien on the property and the amount due in 2019 is recorded in the fund financial statements as special assessments receivable, net of anticipated delinquencies of \$1,823, in the Debt Service Fund with a corresponding amount recorded as unavailable revenue.

State statutes and City ordinances allow special assessments to be levied against a property to reimburse the City for costs incurred for involuntary blight removal and lot clean-up. Such special assessments are levied over a one year period and are due and payable with annual ad valorem property taxes. At December 31, 2019, the amount due for such assessments is recorded in the fund financial statements as special assessments receivable, net of anticipated delinquencies of \$24,244 in the General Fund with a corresponding amount recorded as unavailable revenue.

G. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend an asset's useful life are not capitalized.

Major outlays for capital assets are capitalized as projects are constructed.

Depreciation of all capital assets is calculated using the straight-line method over the following estimated useful lives:

Buildings	15 to 30 years
Improvements other than buildings	15 to 30 years
Machinery and equipment	5 to 15 years
Infrastructure	15 to 30 years

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

1. Summary of significant accounting policies (continued)

H. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. See Note 5 for more information on the deferred outflows for the pensions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has two items that qualify for reporting in this category. One item, *unavailable revenues/deferred receivables*, is reported in the governmental funds balance sheet and the governmental activities in the government-wide statement of net position. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. The governmental activities report deferred receivables from property taxes. These amounts are deferred and recognized as inflows of resources in the period that these amounts become available. The other item that qualifies for reporting as a deferred inflow is related to the pensions and OPEB. See Note 5 for more information on the deferred inflows for the pensions.

I. Compensated absences and other termination payments

All permanent full-time and permanent part-time employees with 90 days of employment are eligible for vacation benefits in varying annual amounts. Employees are allowed to accumulate and carry forward 240 hours of vacation, except for fire fighters and police officers who are allowed to accumulate and carry forward 333.5 and 255 hours of vacation, respectively. Hours accumulated and not taken in excess of these amounts at December 31 of each year are lost by employees unless proper approvals are given. Sick leave benefits accrue to all full-time employees at the rate of one working day per month. There is no maximum amount of sick leave that can be accumulated. Upon resignation in good standing, an employee will receive 20% of sick leave. Upon retirement, an employee will receive 40% of sick leave.

Retirees may purchase health and dental insurance benefits through the City's group plans at 100% of the City's cost. Certain retirees are eligible for assistance with their monthly health and dental insurance premiums through a Health Benefit Account. Eligible employees are those who meet KPERS, KP&F, or Local Plan retirement criteria and who have completed a minimum of 20 years of service with the City, or who are approved for disability benefits under KPERS or KP&F.

For eligible employees, the remaining 60% of unused sick leave is converted to a cash value which establishes the amount of the retiree's Health Benefit Account (a memorandum account). The City shall pay 50% of the retiree's actual monthly health and dental premiums on a pay-as-you-go basis from this memorandum account as long as a balance remains in the retiree's Health Benefit Account. The remaining 50% of the monthly premiums must be paid by the retiree. When the retiree's Health

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

1. Summary of significant accounting policies (continued)

I. Compensated absences and other termination payments

Benefit Account is exhausted, all City premium payments cease. Retirees may not convert the benefit into an in-lieu payment.

All employer related costs of vacation, sick leave, and retiree premium payments are accrued and recorded when earned in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

J. Long-term obligations

In the government-wide financial statements, and proprietary funds types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method if they are material in amount.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

K. Pensions

For purposes of measuring the collective net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Kansas Public Employees Retirement System (KPERS) and additions to/deductions from KPERS' fiduciary net position have been determined on the same basis as they are reported by KPERS, and information about the fiduciary net position of the Police and Fire Pension Plan (the Pension Plan) and additions/deductions from the Pension Plan's fiduciary net position have been determined on the same basis as they are reported by the Pension Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The investments are at fair value.

L. Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

1. Summary of significant accounting policies (continued)

M. Pending Governmental Accounting Standards Board statements

At December 31, 2019, the Governmental Accounting Standards Board (GASB) had issued several statements not yet implemented by the City. Due to the COVID-19 pandemic, the effective dates of certain provisions have been extended for one year and others were extended 18 months. The statements that might impact the City are as follows:

GASB Statement No. 84, *Fiduciary Activities*, improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The statement establishes criteria for identifying fiduciary activities, with the focus of the criteria on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. An activity meeting the criteria should be reported in a fiduciary fund. The requirements of this statement are effective for periods beginning after December 15, 2019.

GASB Statement No. 87, *Leases*, requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this statement are effective for periods beginning after June 15, 2021. (An extension of 18 months)

GASB Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*, improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. The requirements of this statement are effective for periods beginning after June 15, 2019. (An extension of one year)

GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period. This statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this statement are effective for periods beginning after December 15, 2020. (An extension of one year)

GASB Statement No. 90, *Majority Equity Interests*, improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the

City of Leavenworth, Kansas
Notes to Basic Financial Statements

1. Summary of significant accounting policies (continued)

M. Pending Governmental Accounting Standards Board statements (continued)

relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. The requirements of this statement are effective for periods beginning after December 15, 2019. (An extension of one year)

GASB Statement No. 91, *Conduit Debt Obligations*, provides a single method of reporting conduit debt obligations and eliminates diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. It clarifies the definition of a conduit debt obligation and establishes a conduit debt obligation is not a liability of the issuer. The requirements of this statement are effective for reporting periods beginning after December 15, 2021. (An extension of one year)

GASB Statement No. 92, *OMNIBUS 2020*, enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The topics addressed include leases, postemployment benefits, asset retirement obligations, fair value measurements, and derivatives. The requirements of this statement are effective for periods beginning after June 15, 2021.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, addresses the accounting and financial reporting implications of global reference rate reform regarding the use of interbank offered rate (IBOR) and London Interbank Offered Rate (LIBOR) benchmarks that will cease to exist at the end of 2021. The requirements of this statement are effective for periods ending after December 31, 2021.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, improves guidance by addressing various issues related to public-private and public-public partnership arrangements. It also provides guidance for availability payment arrangements, which are arrangements in which a government compensates an operator for various services over a period of time in an exchange or exchange-like transaction. The requirements of this statement are effective for periods beginning after June 15, 2022.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, provides guidance for determining what qualifies as a subscription-based information technology arrangement (SBITA), establishes that SBITAs result in an intangible asset and associated subscription liability, and provides capitalization criteria for outlays other than subscription payments. The requirements of this statement are effective for periods beginning after June 15, 2022.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

1. Summary of significant accounting policies (continued)

N. Adoption of New Accounting Standards

The City adopted GASB Statement No. 82, *Pension Issues-an Amendment of GASB Statements No.67, No.68, and No.73*. The objective of the Statement is to address certain issues that have been raised with respect to Statement No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Assets that are not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB 67 and 68. Specifically, this Statement addresses issues regarding (1)the presentation of payroll related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

2. Reconciliation of government-wide and fund financial statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$46,312,697 difference are as follows:

Bonds payable	\$ (19,545,000)
Interest payable	(253,364)
Compensated absences	(2,519,410)
Other post-employment benefits	(7,433,922)
Net pension liability	(16,561,001)
Net adjustment to decrease <i>fund balance-total governmental funds</i> to arrive at <i>net-position-governmental activities</i>	<u>\$ (46,312,697)</u>

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances – total governmental funds* and *change in net position of governmental activities* as reported in the government-wide statement of activities. One element of the reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$ (1,671,742) difference are as follows:

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

2. Reconciliation of government-wide and fund financial statements (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Capital outlay	\$ 5,097,270
Loss on disposal of asset	(3,137)
Depreciation expense	<u>(6,765,875)</u>

Net adjustment to decrease <i>net change in fund balances – total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	<u>(\$1,671,742)</u>
--	----------------------

Another element of that reconciliation states that “The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$1,644,669 difference are as follows:

Debt issued or incurred:	
Issuance of general obligations bonds	\$ (1,340,000)

Principal repayments:	
General obligation debt	2,865,000
Capital leases	159,601
Change in accrued interest	<u>(39,932)</u>

Net adjustment to increase <i>net change in fund balances – total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	<u>\$1,644,669</u>
--	--------------------

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

2. Reconciliation of government-wide and fund financial statements (continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities (continued)

Another element of that reconciliation states that “Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.” The details of this (\$863,469) difference are as follows:

Compensated absences	\$ (143,869)
Other postemployment benefits	(211,315)
Pension contributions	<u>(508,285)</u>
Net adjustment to decrease <i>net change in fund balances-total governmental funds</i> to arrive at <i>change in net position of governmental activities</i>	\$ <u>(863,469)</u>

3. Stewardship, compliance, and accountability

A. Budgetary information

Applicable Kansas statutes require that annual budgets be legally published and adopted for all funds (including Proprietary Funds) unless exempted by a specific statute. Statutory exemptions currently exist for all Capital Project Funds, Fiduciary Funds, and certain Special Revenue Funds (the Police Seizure, Police Grants, Housing, Community Development, and Special Park Gift Funds).

The statutes provide for the following sequence and timetable in adoption of budgets:

- (a) Preparation of the budget for the succeeding calendar year on or before August 1 of each year.
- (b) Publication of proposed budget on or before August 15 of each year.
- (c) A minimum of 10 days’ notice of public hearing, published in local newspaper, on or before August 15 of each year.
- (d) Adoption of the final budget on or before August 25 of each year.

Budgets are prepared by fund, department, and activity. City management may make transfers of appropriations at the department and activity level of a fund without seeking the approval of the governing body; however, management cannot amend the total budget of a fund without approval of the governing body. The legal level of budgetary control is the fund level and is the level at which the governing body must approve any over-expenditures of appropriations or transfers of appropriated amounts. Kansas statutes prohibit creating expenditures in

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

3. Stewardship, compliance, and accountability (continued)

A. Budgetary information

excess of the total amount of the adopted budget of expenditures of individual funds. Such statutes permit original fund expenditure budgets to be increased for previously unbudgeted increases in revenue other than ad valorem property taxes. The City must first publish a notice of public hearing to amend the expenditure budget of a fund. Ten days after publication, a public hearing is held and the City Commission may amend the expenditure budget of the fund at that time. During the year, several budgets were amended in accordance with Kansas statutes.

Control over spending in funds that are not subject to legal budgets is maintained by use of internal spending limits established by management. Applicable Kansas statutes require the use of an encumbrance system as a management control technique to assist in controlling expenditures. For budget purposes, unencumbered cash balances are determined by deducting liabilities and encumbrances from cash.

Accordingly, the actual data presented in the budgetary comparison statements include encumbrances and, consequently, differ from the expenditure data presented in the governmental fund financial statements prepared in conformity with GAAP.

A reconciliation of the General Fund budgetary basis statement to the governmental fund statement as of December 31, 2019 is as follows:

	General Fund
Expenditures and other financing sources and uses and encumbrances (Basis of budgeting)	\$ 19,417,093
Add 2018 encumbrances	1,806
Less 2019 encumbrances	(27,007)
Less 2018 encumbrances relieved	(1,806)
Expenditures and other financing sources and uses (GAAP Basis)	\$ 19,390,086

B. Deficit fund equity

The Capital Projects Fund has a negative fund balance of \$2,419,793 due to the recognition of \$9,185,000 of bond anticipation notes payable since the notes issued for governmental activities for which all legal steps and the ability to consummate refinancing have not been met must be reported as a fund liability in the fund receiving the proceeds.

C. Compliance with Kansas Statutes-Component Unit

Management is not aware of any statutory violations for the period under audit.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

4. Detailed notes on all funds

A. Deposits and investments

Deposits

Custodial credit risk

Custodial credit risk is the risk that, in the event of a bank failure, the City’s deposits may not be returned to it. The City does not have a formal depository policy, but Kansas statutes require that deposits be collateralized, and that collateral pledged must have a fair value equal to 100% of the deposits and investments, less insured amounts. At December 31, 2019, the City’s carrying amount of deposits was \$20,162,613 and the bank balance was \$20,340,731. Of the bank balance, \$1,019,032 was covered by Federal depository insurance and \$19,321,699 was covered by collateral held by the City or its agent in the City’s name.

Investments

K.S.A. 9-1401 establishes the depositories which may be used by the Library. The statute requires banks eligible to hold the Library’s deposits have a main or branch bank in the county in which the Library is located and the banks provide an acceptable rate of return on deposits. In addition, K.S.A. 9-1402 requires the bank to pledge securities for deposits in excess of FDIC coverage. The Library has no other policies that would further limit custodial credit risk. At December 31, 2019, the Library’s deposits were not exposed to custodial credit risk.

At December 31, 2019, the City had the following investments:

	Maturities	Fair Value
Repurchase agreements	1 – 99 days	\$2,300,000
Money market mutual funds	< 1 year	138,296
Total investments		\$2,438,296

The securities underlying the repurchase agreements are guaranteed by the U. S. Government and their fair value exceeds that of the repurchase agreements.

Credit risk

The City’s investment policy parallels state statutes and allows for idle funds to be invested in temporary notes issued by the governing body, certificates of deposits, time deposits, repurchase agreements and United States treasury bills or notes. Inactive funds may also be invested in the state investment pool, if local financial institutions are not willing to pay an interest rate at least equal to the weekly “investment rate”, which is the equivalent yield on U.S. government securities with maturities comparable to that of the investment being offered.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

4. Detailed notes on all funds (continued)

A. Detailed notes on all funds (continued) Deposits and investments (continued)

Custodial credit risk

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments. The City has no formal policy regarding custodial credit risk. The City is not exposed to custodial credit risk.

Interest rate risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of an investment. The City's formal investment policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from rising interest rates, but state statutes do establish a two-year limitation on investment maturities. In practice, the City does not exceed a one year maturity when investing idle funds. The City is not exposed to significant interest rate risk.

Fair Value Measurement

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs such as quoted prices for similar assets from external sources; Level 3 inputs are significant unobservable inputs. For the year ended December 31, 2019, money market mutual funds held by the City were valued using quoted prices in active markets (Level 1 inputs).

Discretely presented component unit

As of December 31, 2019, the Library cash and investments consisted of the following:

Cash	\$ 277,267
Investments	<u>955,299</u>
Total	<u>\$1,232,566</u>

	<u>Fair Value</u>
Certificates of deposit	\$600,066
Money market	43,090
Stocks	63,913
Bonds	86,796
Mutual funds	<u>161,434</u>
Total Investments	<u><u>\$955,299</u></u>

4. Detailed notes on all funds (continued)

C. Interfund receivables, payables, and transfers

The composition of inter-fund balances as of December 31, 2019, is as follows:

Due to/from other funds:

Receivable Fund	Payable Fund	Amount
General	Non-major governmental	\$ 33,406

These inter-fund balances result from the time lag between the dates that (1) transactions are recorded in the accounting system, and (2) payments between funds are made.

Interfund transfers for the year ended December 31, 2019, are as follows:

Interfund transfers:

Fund	Transfers In	Transfers Out
Major funds		
General Fund	\$ 3,196	\$ 293,428
Debt Service Fund	1,403,582	-
Capital Projects Fund	2,123,079	431,191
Non-major governmental funds	682,552	3,487,790
Total transfers	<u>\$ 4,212,409</u>	<u>\$ 4,212,409</u>

Transfers are primarily used to move revenues from the fund with statutory collection authorization to the Debt Service Fund as debt service principal and interest becomes due or to the Capital Projects Fund to finance various capital projects.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

4. Detailed notes on all funds (continued)

D. Long-term debt

General obligation bonds

The government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. During the year, general obligation bonds totaling \$1,340,000 were issued for governmental activities to provide permanent financing for general infrastructure improvements.

General obligation bonds currently outstanding are as follows:

	Series	Interest Rates	Final Maturity Date	Balance 12/31/19
Governmental activities				
Traffic & Internal Improvements	2010A	1.00% - 3.00%	09/01/20	\$ 280,000

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

4. Detailed notes on all funds (continued)

D. Long-term debt (continued)

At December 31, 2019, the statutory limit on indebtedness for general obligation bonds and bond anticipation notes is \$74,499,282 which, after reduction of applicable outstanding debt of \$19,243,082 (\$19,604,595 minus debt service fund balance of \$361,513) provides a debt margin of \$55,256,200. General obligation bonds of \$14,285,405 for traffic way, sewer and refuse improvements and refundings issued under K.S.A. 10-427 are exempt from this calculation.

Conduit Debt Obligations

From time to time, the City has issued Industrial Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans.

Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

4. Detailed notes on all funds (continued)

D. Long-term debt (continued)

Conduit Debt Obligations

Through December 31, 2019, there is one series of Industrial Revenue Bonds (IRB) outstanding, with an aggregate principal amount payable of approximately \$1,180,737.

E. Capital Leases

The City entered into a lease agreement for the financing of computer network equipment in 2017. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of its future minimum payments as of December 31, 2019. The final payment of the three year lease was made during 2019.

Assets acquired as capital leases are as follows:

	<u>Governmental Activities</u>
Asset:	
Machinery and Equipment	\$535,688
Less: accumulated depreciation	<u>(233,107)</u>
Total	<u>\$302,581</u>

In 2018, the City entered into a lease agreement for the financing of a sewer vacuum truck. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of its future minimum payments as of the inception date.

Assets acquired as capital leases are as follows:

	<u>Business-type activities</u>
Asset:	
Machinery and Equipment	\$401,849
Less: accumulated depreciation	<u>(68,401)</u>
Total	<u>\$333,448</u>

City of Leavenworth, Kansas
Notes to Basic Financial Statements

4. Detailed notes on all funds (continued)

E. Capital Leases (continued)

The future minimum lease obligation and the net present value of these minimum lease payments as of December 31, 2019, were as follows:

	<u>Business-type activities</u>
Year ending December 31:	
2020	\$ 133,950
2021	<u>133,950</u>
Total minimum lease payments	267,900
Less: amount representing interest	<u>13,579</u>
Present value of minimum lease payments	<u>\$ 254,321</u>

F. Operating leases

Discretely presented component unit

The Library, as lessee, has various non-cancelable leases for office equipment which are classified as operating leases. Rent expense under these leases was \$1,680 for the year ended, December 31, 2019.

Future minimum lease payments under the operating lease are:

2020	\$ <u>1,260</u>
Total minimum lease payments	<u>\$ 1,260</u>

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

4. Detailed notes on all funds (continued)

G. Bond anticipation notes

Kansas statutes permit the issuance of bond anticipation notes to finance certain capital improvement projects that will be refinanced with general obligation bonds. During the year, bond anticipation notes totaling \$7,430 were issued for governmental activities to provide temporary financing for general capital improvements.

Bond anticipation notes issued for governmental activities for which all legal steps and the ability to consummate refinancing have not been met are reported as a fund liability in the fund receiving proceeds. The following bond anticipation notes are reported as fund liabilities at December 31, 2019:

	Series	Interest Rates	Final Maturity Date	Outstanding December 31, 2019
Governmental activities				
Internal Improvements	2017B	1.50%	09/01/20	\$240,000
Pavement Management	2018A	2.50%	12/01/2019	1,390,000
New Lawrence Rd	2018A	2.50%	12/01/2022	420,000
RFCC Stone Replacement	2018A	2.50%	12/01/2022	1,100,000
Thornton Street/10 th Ave	2019A	2.85%	12/02/2022	<u>6,040,000</u>
Total				<u><u>\$9,185,000</u></u>

City of Leavenworth, Kansas
Notes to Basic Financial Statements

4. Detailed notes on all funds (continued)

I. Fund balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance classifications based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. As of December 31, 2019, fund balances for governmental funds are made up of the following:

Non-spendable fund balance includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The “not in spendable form” criteria includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or removed only with the consent of resource providers, such as grantors, bondholders, or higher levels of government.

Committed fund balance includes amounts that can only be used for the specific purposes determined by a formal action of the City’s highest level of decision-making authority. The City Commission is the highest level of decision-making authority that can, by adoption of a resolution, prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Assigned fund balance includes amounts intended to be used by the City for specific purposes that are neither restricted nor committed. The City Commission has by resolution authorized the City Manager to assign fund balance. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of the assignment.

Unassigned fund balance is the residual classification for the general fund and includes all amounts not contained in the abovementioned classifications. The general fund is the only fund that reports a positive unassigned fund balance. Other governmental funds may report a negative unassigned fund balance if expenditures for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes.

City of Leavenworth, Kansas
Notes to Basic Financial Statements

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

4. Detailed notes on all funds (continued)

I. Fund balances (continued)

The City Commission adopted a revision of the General Fund Reserve Policy to include the CIP Sales Tax Fund, the County Wide Sales Tax Fund, and as retained earnings for the Sewer Fund and Refuse Fund; the policy aims to ameliorate the adverse impacts of unforeseen financial events such as an economic downturn, significant unanticipated and unavoidable expenditures, or significant unanticipated and unavoidable reductions of revenue.

It is the policy of the City to maintain a General Fund budgetary basis fund balance equal to 16.67% of annual expenditures. Consistent with K.S.A. 10-1101 et al (the Kansas “cash basis law”), the budgetary basis fund balance is defined as cash less payables and encumbrances.

Further, to facilitate the creation and maintenance of the aforementioned General Fund balance policy, it is the policy of the City to annually budget a non-appropriated reserve of 4.00% of fund expenditures as authorized by K.S.A. 79-2927.

Finally, it is the policy of the City to consider the non-appropriated reserve as being unavailable for expenditures and to restrict the utilization of the reserve—as a last resort—to accommodating revenue shortfalls that cannot be overcome through budgetary revisions or emergency expenditures that cannot be deferred to future periods. The policy provides for use of unassigned reserves restricted to include debt reduction; one-time expenditures that do not increase recurring operating costs, but cannot be funded through current revenues, and will reduce future operating costs; and establishing or increasing reserves for risk management programs, equipment replacement, capital projects, emergencies, or disaster recovery.

5. Other information

A. Risk management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. There has been no significant change in insurance coverage from the previous fiscal year. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

For its workers compensation insurance, the City is a participant in the Kansas Eastern Regional Insurance Trust (KERIT), a not-for-profit public entity risk pool established by a group of city and county governmental entities in the eastern region of Kansas. As of December 31, 2019, the membership of KERIT included fourteen cities and two counties.

The City pays an annual premium to KERIT for this workers compensation insurance. KERIT members are subject to additional premium assessments in the event of deficiencies and may receive dividends from those claims years when revenues exceed expenses. KERIT provides coverage for its members within a self-insured retention limit of \$400,000 in accordance with State statutes and obtains independent coverage for insured events up to an annual aggregate limit of \$5 million.

5. Other information

A. Risk management (continued)

A Comprehensive Annual Financial Report for KERIT is available from their offices at 600 Broadway, Suite 300, Kansas City, Missouri 64105-1554.

B. Pension plans-Kansas Public Employees Retirement System

General Information About the Pension Plan

Description of Pension Plan: The City and the Library participate in a cost-sharing multiple-employer defined benefit pension plan (Pension Plan) as defined in Governmental Accounting Standards Board Statement No. 67, *Financial Reporting for Pension Plans*. The Pension Plan is administered by the Kansas Public Employees Retirement System (KPERS), a body corporate and an instrumentality of the State of Kansas. KPERS provides benefit provisions to the following statewide pension groups under one plan, as provided by K.S.A. 74 article 49:

- Public employees, which includes:
 - State/School employees
 - Local employees
- Police and Firemen
- Judges

Substantially all public employees in Kansas are covered by the Pension Plan. Participation by local political subdivisions is optional, but irrevocable once elected.

Those employees participating in the Pension Plan for the City and the Library are included in both the Local and Police and Firemen employee groups.

KPERS issues a stand-alone comprehensive annual financial report, which is available on the KPERS website at www.kpers.org.

Benefits Provided. KPERS provides retirement benefits, life insurance, disability income benefits, and death benefits. Benefits are established by statute and may only be changed by the Kansas Legislature. Member employees (except police and firemen) with ten or more years of credited service may retire as early as age 55 (police and firemen may be age 50 with 20 years of credited service), with an actuarially reduced monthly benefit. Normal retirement is at age 65, age 62 with ten years of credited service, or whenever an employee's combined age and years of credited service equal 85 points (police and firemen normal retirement ages are age 60 with 15 years of credited service, age 55 with 20 years, age 50 with 25 years, or any age with 36 years of service).

Monthly retirement benefits are based on a statutory formula that includes final average salary and years of service. When ending employment, member employees may withdraw their contributions from their individual accounts, including interest. Member employees who withdraw their accumulated contributions lose all rights and privileges of membership. For all pension coverage groups, the accumulated contributions and interest are deposited into and disbursed from the membership accumulated reserve fund as established by K.S.A. 74-4922.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)

B. Pension plans-Kansas Public Employees Retirement System (continued)

General Information About the Pension Plan (continued)

Member employees choose one of seven payment options for their monthly retirement benefits. At retirement a member employee may receive a lump-sum payment of up to 50% of the actuarial present value of the member employee's lifetime benefit. His or her monthly retirement is then permanently reduced based on the amount of the lump sum. Benefit increases, including ad hoc post-retirement benefit increases, must be passed into law by the Kansas Legislature. Benefit increases are under the authority of the Legislature and the Governor of the State of Kansas.

The 2012 Legislature made changes affecting new hires, current members and employers. A new KPERS tier 3 cash balance retirement plan for new hires starting January 1, 2015 was created. Normal retirement age for KPERS 3 is 65 with five years of service or 60 with 30 years of service. Early retirement is available at age 55 with then years of service, with a reduced benefit. Monthly benefit options are an annuity benefit based on the account balance at retirement.

For all pension coverage groups, the retirement benefits are disbursed from the retirement benefit payment reserve fund as established by K.S.A. 74-4922.

Contributions. K.S.A. 74-4919 and K.S.A. 74-49,210 establish the KPERS member-employee contribution rates. KPERS has multiple benefit structures and contribution rates depending on whether an employee is a KPERS 1, KPERS 2, or KPERS 3 member. KPERS 1 members are active and contributing members hired before July 1, 2009. KPERS 2 members were first employed in a covered position on or after July 1, 2009, and KPERS 3 members were first employed in a covered position on or after January 1, 2015. Effective January 1, 2015, Kansas law established the KPERS member-employee contribution rate at 6% of covered salary for KPERS 1, KPERS 2, and KPERS 3 members. K.S.A. 74-4975 establishes the Police and Firemen (KP&F) member-employee contribution rate at 7.15% of covered salary. Member contributions are withheld by their employer and paid to KPERS according to the provisions of Section 414(h) of the Internal Revenue Code.

State law provides that the employer contribution rates are determined based on the results of an annual actuarial valuation for each of the three state-wide pension groups. The contributions and assets of all groups are deposited in the Kansas Public Employees Retirement Fund established by K.S.A. 74-4921. KPERS is funded on an actuarial reserve basis.

For KPERS fiscal years beginning in 1995, Kansas legislation established statutory limits on increases in contribution rates for KPERS employers. Annual increases in the employer contribution rates related to subsequent benefit enhancements are not subject to these limitations. The statutory cap increase over the prior year contribution rate is 1.2% of total payroll for the KPERS fiscal year ended June 30, 2018.

The actuarially determined employer contribution rate (not including the 1.0% contribution rate for the Death and Disability Program) and the statutory contribution rate were 8.89% for KPERS and 22.13% for KP&F for the year ended December 31, 2019. Contributions to the Pension Plan from the City were \$548,440 for KPERS and \$1,280,732 for KP&F for the year ended December 31, 2019. Contributions from the Library for KPERS were \$ 54,673 for the year ended December 31, 2019.

City of Leavenworth, Kansas

5. Other information (continued)

B. Pension plans-Kansas Public Employees Retirement System (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2019, the City reported a liability of \$ 4,797,682 for KPERS and \$ 11,468,288 for KP&F and the Library reported a liability of \$478,279 for KPERS for their proportionate share of the KPERS collective net pension liability. The collective net pension liability was measured by KPERS as of June 30, 2019, and the total pension liability to calculate the collective net pension liability was determined by an actuarial valuation as of December 31, 2018, which was rolled forward to June 30, 2019. Although KPERS administers one cost-sharing multiple-employer defined benefit plan, separate (sub) actuarial valuations are prepared to determine the actuarial contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are determined separately for each of the following groups of the plan:

- State/School
- Local
- Police and Firemen
- Judges

To facilitate the separate (sub) actuarial valuations, KPERS maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer and non-employer allocations are applied to amounts presented in the schedules of pension amounts by employer and non-employer. The City's proportion of the collective net pension liability was based on the ratio of the City's actual contributions to KPERS and KP&F, relative to the total employer and non-employer contributions of the Local group and Police and Firemen group within KPERS for the KPERS fiscal year ended June 30, 2019. The contributions used exclude contributions made for prior service, excess benefits and irregular payments. At June 30, 2019, the City's proportion for KPERS was .343336%, which was an increase of .005565% from its proportion measured as of June 30, 2018. At June 30, 2019, the City's proportion for KP&F was 1.133095%, which was a decrease of .026073% from its proportion measured as of June 30, 2018. At June 30, 2019, the Library's proportion for KPERS was .034227%, which was an increase of .001719% from its proportion measured as of June 30, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The \$910,192 for the City reported as deferred outflows of resources and the \$-0- the Library reported as deferred outflows of resources related to pensions resulting from the City's and the Library's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ended December 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended <u>June 30,</u>	<u>City</u>	<u>Library</u>
2020	\$ 501,132	\$ 20,862
2021	19,506	2,748
2022	307,320	6,856
2023	173,242	7,577
2024	<u>1,034</u>	<u>350</u>
	<u>\$ 1,002,234</u>	<u>\$ 38,393</u>

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of December 31, 2018, which was rolled forward to June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Cost Method	Entry age normal
Inflation	2.75%
Salary Increase	3.5 to 12.00 percent, including price inflation
Investment rate of return	7.75 percent compounded annually, net of investment expense, including price inflation

Mortality rates were based on the RP-2014 Combined Mortality Table, with age setbacks and age set forwards as well as other adjustments based on different membership groups. Future mortality improvements are anticipated using Scale MP-2016.

The actuarial assumptions used in the December 31, 2018, valuation were based on the results of an actuarial experience study conducted for the period January 1, 2013 through December 31, 2015. The experience study is dated November 18, 2016.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)

B. Pension plans-Kansas Public Employees Retirement System (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The actuarial assumptions changes adopted by the Pension Plan for all groups based on the experience study:

- Price inflation assumption lowered from 3.00 percent to 2.75 percent
- General wage growth assumption was lowered from 4.00 percent to 3.5 percent
- Payroll growth assumption was lowered from 4.00 percent to 3.00 percent
- Investment return assumption was lowered from 8.00 percent to 7.75 percent

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major class as of the most recent experience study, November 18, 2016 as provided by KPERS' investment consultant, are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global equity	47%	6.85%
Fixed income	13%	1.25%
Yield driven	8%	6.55%
Real Return	11%	1.71%
Real estate	11%	5.05%
Alternatives	8%	9.85%
Short-term investments	<u>2%</u>	(0.25%)
Total	<u>100%</u>	

Discount Rate. The discount rate used by KPERS to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the contractually required rate. The Local employers do not necessarily contribute the full actuarial determined rate. Based on legislation passed in 1993, and subsequent legislation, the employer contribution rates certified by the KPERS Board of Trustees may not increase by more than the statutory cap. The statutory cap for fiscal year 2019 was 1.2%.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)

B. Pension plans-Kansas Public Employees Retirement System (continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The expected KPERS employer statutory contribution was modeled for future years, assuming all actuarial assumptions are met in future years. Employers contribute the full actuarial determined rate for KP&F. Future employer contribution rates were also modeled for KP&F, assuming all actuarial assumptions are met in future years. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's and the Library's proportionate share of the collective net pension liability to changes in the discount rate. The following table presents the City's and the Library's proportionate share of the collective net pension liability calculated using the discount rate of 7.75%, as well as what the Pension Plan's net pension liability would be if it were calculated at 1 percentage point lower (6.75 percent) or 1 percentage point higher (8.75 percent) than the current rate:

	1% Decrease <u>(6.75%)</u>	Current Discount Rate <u>(7.75%)</u>	1% Increase <u>(8.75%)</u>
City's KPERS proportionate share of the collective net pension liability	\$ 7,165,439	\$ 4,797,682	\$ 2,817,097
City's KP&F proportionate share of the collective net pension liability	16,274,332	11,468,288	7,444,707
Library's proportionate share of the collective net pension liability	714,319	478,279	280,835

Pension plan fiduciary net position. Detailed information about the Pension Plan's fiduciary net position is available in the separately issued KPERS financial report.

City of Leavenworth, Kansas
Notes to Basic Financial Statements

C. Pension Plans-Police and Fire Pension Plan

Plan description

Plan administration. The Police and Fire Pension Plan (the Plan) is a single-employer defined benefit pension plan that is administered by the City. The Plan was established by City ordinance in 1945 to provide retirement income benefits for police officers and firemen and became closed to new entrants in 1971. In 1971, when the City became affiliated with the Kansas Police and Firemen’s Retirement System (KP&F), all members were given the option of joining KP&F or remaining with the Plan. All administrative costs are absorbed by the City’s General Fund.

Management of the Plan is vested in the City Commission, which consists of five elected members. Plan provisions may be amended by the City Commission.

The Plan does not issue a stand-alone financial report but is included as a pension trust fund of the City.

Plan membership. The plan is closed to new entrants. At December 31, 2019, pension plan membership consisted of:

Inactive plan members or beneficiaries currently receiving benefits	4
Inactive plan members entitled to but not yet receiving benefits	-
Active plan members	=
	4

Benefits provided. The Plan provides only retirement benefits. The retirement benefits are calculated as 50% of the higher of the final monthly salary or the average of the final twelve months of salary.

Benefit terms provide for annual cost-of-living adjustments to each member’s retirement allowance subsequent to the member’s retirement date. The annual adjustments are determined by the City Commission.

Contributions. The contribution requirements of plan members and the reporting entity are established by City ordinance and may be amended by the City Commission. The City is required to contribute at an actuarially determined amount based on the latest actuarial report. As this is a closed plan and all members are retirees or beneficiaries, the members are no longer making any contribution to the Plan. The City provides for pension expenses by levying ad valorem property taxes each year. The actual employer contribution to the Plan during the year ended December 31, 2019 was \$121,449.

Investments

Investment Policy. The City has no formal investment policy or asset allocation policy for the Plan. All plan assets are invested in the City’s cash pool which falls under the City’s investment policy.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)

C. Pension Plans-Police and Fire Pension Plan (continued)

Methods used to value investments

The pension plan assets consist of only pooled cash and investments that are pooled with the City's cash and investments. These consist of checking accounts, repurchase agreements and certificates of deposits. The Plan's portion is reported at fair value.

Concentrations. The entire pension fund assets are invested in the City's cash pool. The Plan holds no individual investments with a market value that exceeds five percent of net position available for benefits.

Rate of return. For year ended December 31, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, was 0.00%. The money weighted rate of return expresses investment performance net of investment expense, adjusted for the changing amounts actually invested.

Net pension liability

The City's net pension liability was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2019.

Investments (continued)

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of December 31, 2019 using the following actuarial assumptions:

Inflation	3%
Ad-hoc Cost of living increases	3%
Expected long term rate of return	3%

Cost method	Entry Age
-------------	-----------

Mortality rates were based on the RP-2014 Mortality Table with Blue Collar adjustment projected from 2006 with Social Security Generational Improvement Scale based on the 2018 Trustees Report.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These expected future real rates of return are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of December 31, 2019 are summarized in the following table:

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)

C. Pension Plans-Police and Fire Pension Plan (continued)

Changes in the net pension liability

<u>Asset class</u>	<u>Target allocation</u>	<u>Long-term expected real rate of return</u>
Cash	100%	0.0%

Long-term expected rate of return is 3%.

Money-weighted rate of return is 0.00%

Discount Rate

The discount rate used to measure the total pension liability was 3.00%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)

5. Other information (continued)

D. Other postemployment healthcare benefits

Description

The City offers postemployment health insurance to retired employees. The benefits are provided through a single employer defined benefit postemployment healthcare plan administered by the City. Kansas statutes provide that postemployment healthcare benefits be extended to retired employees who have met age and/or service eligibility requirements until the individuals become eligible for Medicare coverage at age 65. The health insurance benefit provides the same coverage for retirees and their dependants as for active employees and their dependants. The benefit is available for selection at retirement and is extended to retirees and their dependants until the individuals become eligible for Medicare at age 65. The plan does not issue a stand-alone financial report.

Funding policy

The City provides health insurance benefits to retirees and their dependants in accordance with Kansas law (K.S.A. 12-5040). Kansas statutes, which may be amended by the State Legislature, establish that participating retirees may be required to contribute to the employee group health benefits plan, including administrative costs at an amount not to exceed 125 percent of the premium cost for other similarly situated employees. The City requires participating retirees to contribute 100 percent of the blended premium cost of active employees up to age 65 (including the employer and employee share).

The City provides funding for the expenditures on a pay-as-you-go basis through the General Fund. In 2019, the City made contributions of \$173,928 to the plan. At December 31, 2019, the following employees were covered by the benefit terms:

Active employees	218
Retirees and their covered spouses	<u>14</u>
Total	<u>232</u>

Total OPEB Liability

The City's total OPEB liability of \$7,341,882 was measured as of January 1, 2018 and was determined by actuarial valuation as of that date.

The total OPEB liability in the January 1, 2019 actuarial valuation was determined using the following assumptions and other inputs, applied to all periods in the measurement, unless otherwise specified:

Valuation date	December 31, 2018 projected to January 1, 2019
Actuarial method	Entry age normal as a level percentage of payroll
Inflation	2.75% per year
Payroll Growth	3.50%
Discount rate	4.11% at January 2019; 3.26% as of December 31, 2019
Health Care Coverage Election Rate	Active employees with current coverage: 75% for Public Safety 30% for all other groups; 0% for Active employees with no coverage
Spousal Coverage	Inactive employees with current coverage: 100%; Inactive employees with no coverage: 0% 50% of employees are assumed to be married at retirement.
Mortality	Husbands are assumed to be three years older than wives. RPH-2018 Total Dataset Mortality Table fully generational using Scale MP-2018 (RHP-2018 table is created based on RPH-2014 Total Dataset Mortality Table with 8 years of MP-2014 mortality improvement backed out, projected to 2018 using MP-2018 improvement.)
Disability	None

The discount rate used in valuing OPEB liabilities for unfunded plans as of the Measurement Date must be based on a yield for 20-year-tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent on another rating scale).

City of Leavenworth, Kansas

Results by Group

Below is the summary of the OPEB liability by function:

<u>Function</u>	<u>OPEB Liability as of December 31, 2019</u>
Culture and Recreation	\$ 84,608
General Government	82,726
Housing and Community development	48,673
Public Safety	6,548,369
Public Works	362,925
Refuse	71,222
Wastewater	<u>143,359</u>
Total	<u>\$ 7,341,882</u>

E. Other Postemployment Benefits - KPERS

Plan Description. The City participates in a multiple-employer defined benefit other postemployment benefit (OPEB) plan (the Plan) which is administered by the Kansas Public Employees Retirement System (KPERS). The Plan provides long-term disability benefits and a life insurance benefit for disabled members to KPERS members, as provided by K.S.A. 74-04927. The Plan is administered through a trust held by KPERS that is funded to pay annual benefit payments. However, because the trust's assets are used to pay employee benefits other than OPEB, the trust does not meet the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. Accordingly, the Plan is considered to be administered on a pay-as-you-go basis.

Benefits. Benefits are established by statute and may be amended by the KPERS Board of Trustees. The Plan provides long-term disability benefits equal to 60 percent (prior to January 1, 2006, 66 2/3 percent) of annual compensation, offset by other benefits. Members receiving long-term disability benefits also receive credit towards their KPERS retirement benefits and have their group life insurance coverage continued under the waiver of premium provision.

The monthly long-term disability benefit is 60 percent of the member's monthly compensation, with a minimum of \$100 and a maximum of \$5,000. The monthly benefit is subject to reduction by deductible sources of income, which include Social Security primary disability or retirement benefits, workers compensation benefits, other disability

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)

E. Other Postemployment Benefits – KPERS (continued)

benefits from any other sources by reason of employment, and earnings from any form of employment. If the disability begins before age 60, benefits are payable while the disability continues until the member's 65th birthday or retirement date, whichever occurs first. If the disability begins after age 60, benefits are payable while the disability continues, for a period of five years or until the member retires, whichever occurs first. Benefit payments for disabilities caused or contributed to by substance abuse or non-biologically based mental illnesses are limited to the shorter of the term of the disability or 24 months per lifetime.

The death benefit paid to beneficiaries of disabled members is 150% of the greater of 1) the member's annual rate of compensation at the time of disability, or 2) the members previous 12 months of compensation at the time of the last date on payroll. If the member has been disabled for five or more years, the annual compensation or salary rate at the time of death will be indexed using the consumer price index, less one percentage point, to compute the death benefit. If a member is diagnosed as terminally ill with a life expectancy of 12 months or less, the member may be eligible to receive up to 100% of the death benefit rather than having the benefit paid to the beneficiary. If a member retires or disability benefits end, the member may convert the group life insurance coverage to an individual insurance policy.

Employees covered by benefit terms. At June 30, 2019, the valuation date, the following employees were covered by the benefit terms:

Active Members	131
Disabled Members	4

Total OPEB Liability. The total KPERS OPEB liability of \$401,428 was determined by an actuarial valuation as of December 31, 2018, which was rolled forward to June 30, 2019, using the following actuarial assumptions:

Valuation date	December 31, 2018 projected to January 1, 2019
Actuarial method	Entry age normal as a level percentage of payroll
Inflation	2.75% per year
Payroll Growth	3.00%
Discount rate	3.5% at January 2019

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)

E. Other Postemployment Benefits – KPERS (continued)

The discount rate was based on the bond buyer general obligation 20-bond municipal index.

Mortality rates were based on the RP 2014 Mortality Tables, with age setbacks and age set forwards as well as other adjustments based on different membership groups. Future mortality improvements are anticipated using Scale MP-2016.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of an actuarial experience study for the period of July 1, 2014 through June 30, 2016. Other demographic assumptions are set to be consistent with the actuarial assumptions reflected in the December 31, 2018 KPERS pension valuation.

The changes in the total OPEB liability are as follows:

Balance as of June 30, 2018	\$ 291,954
Changes for the year:	
Service cost	20,579
Interest on total OPEB liability	10,795
Effect of plan changes	-
Effect of economic/demographic changes	139,941
Effect of change of assumptions*	5,973
Benefit payments	<u>(67,814)</u>
Balance as of June 30, 2019	<u>\$ 401,428</u>

*Discount rate change from 3.87% to 3.50%

Sensitivity of the total KPERS OPEB liability to changes in the discount rate. The following presented the total KPERS OPEB liability of the City, as well as what the City’s total KPERS OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.50%) or 1-percentage-point higher (4.50%) than the current discount rate:

	1% Decrease <u>(2.50%)</u>	Current Discount <u>(3.50%)</u>	1% Increase <u>(4.50%)</u>
Total OPEB liability	\$ 418,053	\$ 401,428	\$ 385,488

2021		27,728
2022		27,728
2023		27,728
2024		27,728
Thereafter		<u>90,681</u>
Total	\$	<u>229,321</u>

F. Closure and postclosure care costs

State and federal laws and regulations require the City’s sanitary landfill to place a final cover on the landfill site and to perform certain maintenance and monitoring functions for thirty years after closure. Although closure and postclosure care costs will be paid in future periods, the City reports these closure and postclosure care costs as an operating expense in each period based upon landfill capacity used as of the balance sheet date. The \$193,174 reported as landfill closure and postclosure care liability in the Refuse Fund at December 31, 2019 represents 100% of the estimated liability as the landfill is no longer accepting waste. The estimated liability is based upon what it would cost to perform all closure and postclosure care costs in 2019. Actual costs may be different than those estimated due to inflation, changes in technology or changes in regulations.

G. Commitments and contingencies

Normal commitments have been made for future expenditures related to the City’s capital projects program.

The City is a defendant in various legal actions pending or in process for property damage, personal injuries, zoning matters and other miscellaneous claims. The ultimate liability that might result from the final resolution of the above matters is not presently determinable. While certain lawsuits involve substantial amounts, in the opinion of management and counsel, such litigation will have no material effect on the basic financial statements of the City.

The City receives significant financial assistance from numerous Federal, state and local governmental agencies in the form of grants. Grantor agencies reserve the right to conduct additional audits of the City’s grant programs for economy, efficiency and program results which may result in disallowed costs to the City. However, City management does not believe such audits would result in any disallowed costs that would be material to the City’s financial position as of December 31, 2019.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)
G. Commitments and contingencies

The City uses encumbrances to control expenditure commitments for the year and to enhance cash management. Encumbrances represent commitments related to executor contracts not yet performed and purchase orders not yet filled. Commitments for such expenditure of monies are encumbered to reserve a portion of applicable appropriations. Encumbrances still open at yearend are not accounted for as expenditures and liabilities, but as restricted, committed, or assigned fund balance. At December 31, 2019, the City's recorded encumbrances in governmental funds were as follows:

General Fund	\$ 27,007
Capital Projects Fund	5,109,580
Other non-major governmental funds	
Recreation Fund	4,713
Streets Fund	4,495
CIP Sales Tax Fund	37,774
Planters II Fund	34,668
Convention & Visitors Bureau Fund	<u>18,214</u>
Total	<u>\$ 5,236,451</u>

H. Tax Abatements

The City provides tax abatements through two programs-the Neighborhood Revitalization Plan and Economic Development Plan.

For the fiscal year ended December 31, 2019, the City abated taxes totaling \$752,007, including the following tax abatement agreements that each exceeded 10% of the total amount abated:

- The **Neighborhood Revitalization Plan (NRA)** was established under the authority of K.S.A 12-17, 114 et al. The purpose of the plan is intended to promote the rehabilitation, conservation, and /or redevelopment of areas within the city to protect the public health, safety, and welfare of the residents.

The tax rebate incentive is available to property owners for certain improvements that raise the appraised value of residential and commercial properties. The City evaluates all the properties before granting the abatement. Any default in paying taxes results in the property owner not receiving their abated monies. If the property is sold, the abatement stays in effect with the new property owner.

The plan provides for an ad valorem rebate of 100% of the increased taxes paid on eligible improvements for a period of 5-10 years. Interlocal agreements were entered into with the USD #453 school district and Leavenworth County. The NRA district includes properties from Metropolitan

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)

H. Tax Abatements (continued)

The Neighborhood Revitalization Plan (NRA) (continued)

Avenue as the northern boundary to Spruce Street as the southern boundary and from N Esplanade Street as the eastern boundary to N 10th Street as the western boundary, with a portion of area between 10th and 11th street included. Within that area, two sections are considered Tax Increment Financing (TIF) areas instead of NRA.

As of December 31, 2019, the Commission approved extending the NRA for another 10 years. There are approximately 60 properties participating in the tax abatements, which totaled \$87,364.

- **The Economic Development Plan** was established under the authority of K.S.A. 12-1770 et seq. and includes tax abatements for economic development purposes in the form of Tax Incremental Financings (TIFs) and Industrial Revenue Bonds (IRBs). The statutes require that the projects being considered for a TIF generate enough benefits and TIF revenues to cover or exceed the project costs. TIFs may take the form of either ad valorem tax abatements or sales tax abatements or both. IRBs not only provide financing for the project but also allow the sales taxes on the project to be abated using the City's sales tax exemption status.

As of December 31, 2019, the City has the following **Sales Tax TIF** agreements:

- Home Depot (2001-2021) refund of 100% of the original 1% City sales tax. The amount repaid to Home Depot in 2019 was \$294,042.
- Zeck Ford (2015- 2035) refund of 80% of the original 1% City sales tax that is generated on sales exceeding \$53,992,480 annually. The amount of sales tax repaid to Zeck for 2019 was \$63,517.

As of December 31, 2019, the City has the following **Property Tax TIF** agreements:

- Zeck Ford (2015-2035): 100% refund of the property tax generated in excess of the assessed value excluding the allocation to the state and the school district general fund that is exempted by statute. \$1,102,513 is considered the base value, and 2015 is considered the base year. At December 31, 2019, the district generated \$52,580.
- North Gateway Hotels (2014-2034): 100% of the property tax generated on the increased value of the properties in the North Gateway Hotel TIF is placed into a TIF fund, excluding the allocation to the state and the school district general fund that is exempted by statute. The monies paid into the TIF fund will be used to repay the \$875,000 of GO bonds issued on behalf of the developer towards the construction of an extended stay hotel at that same location. As of December 31, 2019, the district generated \$97,184.

City of Leavenworth, Kansas
Notes to Basic Financial Statements
December 31, 2019

5. Other information (continued)

H. Tax Abatements (continued)

- Downtown Hotel (2014-2034): 100% of the property tax generated on the increased value of the properties in the Downtown Hotel TIF is placed into a TIF fund, excluding the allocation to the state and the school district general fund that is exempted by statute. The base year for assessed valuation is 2011 and the base value is \$2,352,884. As of December 31, 2019, the district generated \$157,320. The City has Interlocal agreements with USD #453 and Leavenworth County for the property tax TIFs.

I. Subsequent Events

The City evaluated subsequent events through June 30, 2020, the date the financial statements were available to be issued.

On March 11, 2020, the World Health Organization declared the COVID-19 virus outbreak a pandemic. The ultimate effect on the City's financial statements cannot be determined at this time.

Valuation date:

Actuarially determined contribution rates are calculated as of December 31, 2019

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry Age
Amortization method	Open level dollar 10 year basis
Asset valuation method	Market Value of Assets
Inflation	3%
Salary increases	N/A-closed plan
Investment rate of return	3.0% net of investment expenses
Cost of Living Increases	3%
Interest rates:	
Discount Rate	3%
Expected Long Term Rate of Return	3%
Municipal Bond rate	N/A
Retirement age	N/A-closed plan
Mortality	RP-2014 Mortality Table with Blue Collar adjustment projected from 2006 with Social Security Generational Improvement Scale based on the 2019 Trustees Report
Changes since prior report	Amortization of unfunded actuarial liabilities changed from open level dollar 15 year basis to open level dollar 10 year basis. Mortality improvement scale used was updated from the Social Security 2018 Scale to the Social Security 2019 Scale.

Statements and Schedules

City of Leavenworth, Kansas

Nonmajor Governmental Funds

December 31, 2019

Special Revenue Funds

Fund Descriptions

Convention & Visitors Bureau Fund

To account for the receipt and disbursement of transient guest taxes for the promotion of tourism and conventions.

Probation Fund

To account for the receipt and disbursement of resources related to probations services.

Police Seizure Fund

To account for expenditures relating to the operation of police drug abuse abatement programs. Resources are generated from proceeds of the sale of assets confiscated or seized during drug enforcement activities.

Police Grants Fund

To account for the receipt and disbursement of federal and state grants for various police programs.

Streets Fund

To account for the operational expenditures of the Street Department. Resources are mainly from a state fuel tax.

Recreation Fund

To account for recreational program expenditures. Resources are generated by a tax levy and program user fees.

Special Park Gift Fund

To account for public contributions for improvements to city parks.

Economic Development Fund

To account for the economic development operations expenditures. Resources are generated from a 15% allocation of the Countywide sales tax.

City of Leavenworth, Kansas

Nonmajor Governmental Funds
(Continued)

Fund Descriptions (continued)

Bus & Tech Park Fund

To account for the general maintenance and activities related to the business and technology park.

Housing Fund

To account for monies relating to the maintenance and operation of the public housing facility and housing programs for low income persons. Financing is provided by user fees and federal financial assistance.

Community Development Fund

To account for monies expended for community development block grant programs and various other community improvements. Financing is provided by federal financial assistance.

CIP Sales Tax Fund

To account for the activities related to the 1/2 cent permanent sales tax dedicated for capital improvements.

Countywide Sales Tax Fund

To account for the receipt and disbursement of sales tax revenue resulting from a one-cent countywide sales tax enacted by Leavenworth County.

Tax Increment Fund - Zeck

To account for the transactions related to the Zeck Ford properties Economic Development Incentives.

Tax Increment Fund - Hotels

To account for the transactions related to Hotel Economic Development Incentives.

Tax Increment Fund - Home Depot

To account for the receipt and disbursement of sales tax revenues related to the 2001 tax increment financing project.

Statistical Section

This part of the City of Leavenworth's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents	Page
Financial Trends <i>These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.</i>	105-109
Revenue Capacity <i>These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.</i>	110-114
Debt Capacity <i>These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.</i>	115-118
Demographic and Economic Information <i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.</i>	119-121
Operating Information <i>These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.</i>	122-123

Sources: Unless otherwise noted, information in these sections is derived from the comprehensive annual financial reports for the relevant year.

City of Leavenworth, Kansas
 Direct and Overlapping Governmental Activities Debt
 As of December 31, 2019

Governmental Unit	Total Debt Outstanding	Net Debt Outstanding (1)	Estimated Percentage Applicable (2)	Estimated Share of Direct and Overlapping Debt
Debt repaid with property taxes				
School District #453	\$ 80,870,000	\$ 35,582,800	93.0%	\$ 33,092,004
Leavenworth County	20,380,000	13,654,600	35.0%	<u>4,779,110</u>
Subtotal, overlapping debt				37,871,114
City direct debt				<u>19,243,082</u>
Total direct and overlapping debt				<u><u>\$ 57,114,196</u></u>

Source: Debt outstanding data and assessed value data used to estimate applicable percentages provided by the Leavenworth County Clerk.

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of outstanding debt of those overlapping governments that is borne by the residents and business of the city. This process recognizes that, when considering the city's ability to issue and repay long-term debt, the entire debt burden borne by the residents and business should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) A portion of Unified School District 453's overlapping debt will be paid by the State of Kansas pursuant to current percentages for Bond and Interest Fund State Aid Payments. The current percentage for reimbursement for the Unified School District 453 is 44% for bonds issued after July 1, 2002.

(2) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value.

City of Leavenworth, Kansas
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended December 31, 2019

Note 1. Organization

The City of Leavenworth, Kansas is the recipient of several federal awards. All federal awards received directly from federal agencies as well as those awards that are passed through other government agencies, are included on the Schedule of Expenditures of Federal Awards.

Note 2. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the City of Leavenworth, Kansas, and is presented on the modified accrual basis of accounting. The information presented in this schedule is in accordance with the requirements of Title 2 U.S. *Code of Federal Regulation* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 3. Local Government Contributions

Local cost sharing, as defined by Title 2 CFR Part 200, Subpart D, Section 200.306 is required by certain federal grants. The amount of cost sharing varies with each program. Only the federal share of expenditures is presented in the Schedule of Expenditures of Federal Awards.

Note 4. Additional Audits

Grantor agencies reserve the right to conduct additional audits of the City's grant programs for economy and efficiency and program results that may result in disallowed costs to the City of Leavenworth, Kansas. However, management does not believe such audits would result in any disallowed costs that would be material to the City's financial position at December 31, 2019.

Note 5. Indirect Cost Rate

The City does not allocate indirect costs, and therefore has not elected to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

**Independent Auditor's Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

Other offices in Missouri

To the Honorable Mayor and Members of the City Commission
City of Leavenworth, Kansas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Leavenworth, Kansas (the City), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 30, 2020. Our report includes a reference to other auditors who audited the financial statements of the Leavenworth Public Library, a discretely presented component unit, as described in our report on the City's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the Leavenworth Public Library were not audited in accordance with *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major Program
and on Internal Control Over Compliance Required by the Uniform Guidance**

Other offices in Missouri

To the Honorable Mayor and City Commission
City of Leavenworth, Kansas

Report on Compliance for the Major Federal Program

We have audited the City of Leavenworth, Kansas' (the City) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended December 31, 2019. The City's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the City's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on the Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2019.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
