Policy Report

Consider Purchase of Additional IT Storage

During the 2022 Budget and CIP process, the Commission approved an allocation of \$111,000 for Additional IT Storage from the CIP Sales Tax Fund.

ISG Technologies designed and built the City's current HPE Nimble Storage System. Through the State of Kansas NASPO contract, the City receives competitive rates on the purchase of additional HPE Nimble shelves and equipment. ISG Technology has provided the City with a quote of \$95,744.88 for the Additional IT Storage.

Staff recommends approval of the quote from ISG Technologies to purchase Additional IT Storage in an amount not to exceed \$95,744.88.
