

## 2023 City of Leavenworth Employee Stormwater Training

No.	Training	Date Completed
1	Evaluating Minimum Cover Depths of Flexible Pipes Subject to Tracked Vehicular Loads	2/24/2023
2	Drywells Address both Flood & Drought Stormwater Mitigation Challenges	2/17/2023
3	Bury Depth Considerations for Manholes	3/7/2023
4	Hydraulics	
5	Culvert Program & Inspection	
6	Improving the Design Life Cycle of Sewer Structures	3/8/2023
7	Box Culvert Manufacturing & Installation	
8	Box Culvert Design	3/9/2023
9	Evacuation Routes	
10	Pipe Installation	
11	Ethics & Safe Design	
12	Precast Concrete Trenchless Installation	6/14/2023
13	Course Excavation and Trench Safety	
14	Improving the Design Life Cycle of Sewer Structures	7/18/2023
15	Proper Pipe Installation Practices	
16	Post-Installation Inspection of Storm Sewer Pipes and Culverts	7/19/2023
17	Post-Installation Inspection of Storm Sewer Pipes	
18	Examining the Phosphorus Problem: What the Data Tells Us About Reducing Phosphorus in Stormwater	7/25/2023
19	Collection Systems: From Inspection to Rehabilitation	9/14/2023
20	Managing Stormwater through Green Infrastructure & Low Impact Development	12/5/2023
21	Innovative High Performance BMPs for Erosion & Sediment Control	12/13/2023
